BOOK STUDY

# Learning Transformed

## 8 Keys to Designing Tomorrow's Schools, Today

Eric C. Sheninger and Thomas C. Murray

### ABOUT THE BOOK STUDY

#### Learning Transformed

The traditional model of schooling ultimately prepares students for the industrial model of the past. If we want our students to become successful citizens in a global society, we must dramatically shift to a more personal approach. Failure is not an option. We can no longer wait. Let Learning Transformed show you how you can be a part of the solution.

Authors Eric C. Sheninger and Thomas C. Murray outline eight keys each a piece of a puzzle for transforming the K–12 education system of teaching and learning to intentionally design tomorrow's schools so today's learners are prepared for success . . . and stand ready to create new industries, find new cures, and solve world problems.

Join us for this five (5) week Book Study and explore how you can become part of the solution and transform your classroom to prepare your students for the global society they will be living in.

The authors encourage you to use the hashtag #LT8Keys to continue the discussion online.
